The Los Angeles County Arboretum and Botanic Garden is a unique 127-acre botanical garden and historical site located in what was the heart of the historic Rancho Santa Anita in the city of Arcadia. I would recommend you go to the website for a ton of information and history of the arboretum.

Members and visitors are encouraged to take photos while visiting the Los Angeles County Arboretum. The Arboretum offers distinctive backdrops, from our signature Mayberg Waterfall to the sweeping vistas of the San Gabriel Mountains.

Guests are permitted to take vacation-style and nature photos. Photography permit fees apply to all posed sessions on the grounds. I couldn't find anything about tripods so I would assume they are permitted.
